Hacienda de Santa Cecilia
Samalayuca, Chihuahua

Thursday August 1, 2013

Ing. Jorge Aguilar Talamates
Director of México
CCEXIM A. en P.
Present.

I hereby make knowledge of the result obtained on the orchard in Samalayuca, Chihuahua with the application of the product "MicroSoil" of the Company Biomasssters Global Inc., which is Imported, Distributed and Marketed Exclusively by their company CCEXIMM A. in P., in Mexico, and that the information is as follows:

The product "MicroSoil" was applied on the Fruit Trees of an average height of approximately two (2) to three (3) meters and with little foliage and they were in a decadent condition and were dying slowly, unable to have a solution to save them, because of the nature of the terrain and lack of nutrients in it.

Because there was no: (a). Soil analysis, (b). Or water analysis (c). and he pH of the soil was unknown, we chose to use the product "MicroSoil" as a salvation. I can say and confirm that on the trees that the product "MicroSoil" was applied to, (Mix 1 liter "MicroSoil" CONCENTRATE with 100 liters of water) the trees revived and recovered in a short time, four (4) to six (6) weeks and are in positive growth, attributing to:

- A. The product "MicroSoil".
- B. Application of a dose of 6 liters of mixture per Tree of the Product "MicroSoil" directly to the root.
- C. Injection based, through four (4) holes of one (1) inch in diameter, with ten (10) to twelve (12) inches deep, to one (1) meter of distance from the trunk in all four directions (North, South, East, West).
- D. The application of "MicroSoil" was done in the evening.
- E. The application of "MicroSoil" was made with the soil wet.
- F. Timely irrigation to the trees
- G. Proper management of irrigation.
- H. Date of application Mayo 25, 2013.

I can say that the results were very positive and I am very pleased with them; and I will continue using the product "MicroSoil" for the improvement and growth of my Fruit Trees.

With nothing further at this time Yours truly.

Best Regards

Atencamente
